CME ACTIVITIES

June 2022

Medical Education · 913-791-4208 · traci.lewin@olathehealth.org

THORACIC TUMOR CONFERENCE: REVIEW OF CURRENT CASES

Tuesdays: June 7, 14, 21, & 28, 2022 • 7:00 a.m. – 8:00 a.m.

Conferences will be held in the Medical Staff Conference Room of OMC and via WebEx

If you have a patient on the agenda to be discussed, you will receive an invitation to attend via WebEx

Ihab Hassan, MD, Moderator

OBJECTIVES:

Upon completion of this live activity the physician will be able to:

- ⇒ Document stage, including prognostic indicators, and treatment planning using evidence-based treatment guidelines.
- ⇒ Review options for clinical trial participation.
- ⇒ Discuss the initial diagnosis and work-up of patients with suspected malignant diseases of the thorax.
- ⇒ Review the treatment options available to patients with malignancies of the chest.
- ⇒ Improve his/her ability to care for and monitor patients with tumors within the thorax.

CME CREDIT

The Olathe Medical Center is accredited by the Colorado Medical Society to provide continuing medical education for physicians.

The Olathe Medical Center designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Target Audience: Radiology, Pathology, Radiation Oncology, Oncology, Hematology Oncology, Pulmonary, Cardiothoracic Surgery, Family Practice, but may include any clinician or discipline interested in the care of patients with cancer.

ONCOLOGY CONFERENCE: REVIEW OF CURRENT CASES

Tuesdays: June 7, 14, 21, & 28, 2022 • 8:00 a.m. – 8:30 a.m.

Conferences will be held in the Medical Staff Conference Room of OMC and via WebEx

If you have a patient on the agenda to be discussed, you will receive an invitation to attend via WebEx

Larry R. Corum, MD, Moderator

OBJECTIVES:

Upon completion of this live activity the physician will be able to:

- ⇒ Discuss and understand the initial diagnosis and evaluation of patients with suspected malignant disease.
- ⇒ Work within a multidisciplinary framework to get patients connected with the appropriate sub-specialist for treatment.
- ⇒ Care for and monitor patients with malignant disease.
- ⇒ Understand the treatment options in selected types of cancer.
- ⇒ Understand the availability of, and potential eligibility for, clinical trials.
- ⇒ Recognize the importance of palliative care and situations where anticancer therapy may not be realistic or appropriate.
- ⇒ Document stage and understand prognostic factors.

Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Target Audience: Cardiology, Cardiothoracic Surgery, Family Practice

PAIN MANAGEMENT CASE CONFERENCE: REVIEW OF CURRENT CASES

Friday, June 10, 2022 • 7:00 – 8:00 a.m.
The conference will be held in the Medical Staff Conference Room and via WebEx

John Feehan, MD, Moderator

OBJECTIVES: ***Upon completion of this live activity the physician will be able to:***

- ⇒ Provide a resource for physicians/APPs to review, in a case conference setting, complex pain management cases; with focus on utilization of non-pharmacologic resources, and optimal pharmacologic management, including appropriate prescribing of opioids.
- ⇒ Utilize the case conference model to facilitate multi-specialty communication regarding pain management, and pain management tools available.
- ⇒ Use Case Management review to demonstrate new modalities, and new applications for current treatment modalities and new applications for current treatment modalities in the provision of pain management.
- ⇒ Review the distinctions between acute and chronic pain management, and system resources available to support management of acute and chronic pain management.
- ⇒ Include examples of use of prescribing drug monitoring program in provision of safe, optimal care to patients.

This course fulfills the Category III renewal requirement for allopathic and osteopathic physicians in Kansas.

The content is required to address: 1) acute or chronic pain management; 2) the appropriate prescribing of opioids; or 3) the use of prescription drug monitoring program.
